

Contribution Statement

Group Information

- Group number: [replace with your group number]
- Submission course: CPEN333B

Student Names

- Student 1: [replace with student name]
- Student 2: [replace with student name]

Contribution Summary

This template is intentionally specific so that each student can clearly state what they personally contributed. Replace every placeholder with the actual work completed by your group. The final version should describe concrete work, not broad claims such as “helped with coding.”

Student	Design and planning	Implementation	Code review and testing	Documentation
Student 1	[describe the design work completed by Student 1]	[describe the code written by Student 1]	[describe review, debugging, and verification work]	[describe report and submission work]
Student 2	[describe the design work completed by Student 2]	[describe the code written by Student 2]	[describe review, debugging, and verification work]	[describe report and submission work]

Collaboration Notes

- Shared decisions: [describe the main decisions that were discussed and agreed on together]
- Integration process: [describe how the code was merged, reviewed, and tested before submission]
- Final verification: [describe who performed the final run-through and upload]

Statement

We confirm that the submitted work reflects our own group’s design, implementation, review, and documentation effort, and that the contribution descriptions above identify the work completed by each student.
